Election/Restrictions

1. Newly submitted claim 14-17 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The newly recited claims are directed to a combination which does not require all the features of the originally presented subcombination. Additionally, the subcombination would find alternative applicability in heating slides in processes not involving staining, such as for incubation.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 14-17 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

2. This application is in condition for allowance except for the presence of claims 14-17 to an invention which was non-elected by original presentation. Accordingly, claims 14-17 have been cancelled.

Terminal Disclaimer

3. The terminal disclaimer filed on 03/22/04 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US 6,183,693 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

4. Claims 1-13 are allowed.

5. The following is an examiner's statement of reasons for allowance: Applicant's arguments, filed 03/22/04, adequately establish that the instant claims in fact differ in scope, although only slightly, from those of US 6,183,693. As such, the double patenting rejection is obviated by the proper terminal disclaimer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
